**Safety
Services**

Safety Enterprise, Inc. provides a variety Safety Services to our Clients, such as;

Consultation: We offer on-site consultation services, upon request, to help employers improve safety at their facilities or on a job site. Safety Enterprise consultants help employers recognize hazards, make recommendations for solving problems and suggest other sources of help that are available. Safety Consultation efforts directed at the reduction of safety related losses with a focus on accident/incident prevention and reduction, as well as Regulatory Compliance.

Inspections and Audits: A fixed facility or a job site inspection consists of looking at general site conditions, review of compliance documents, personnel interviews and observing task specific work. Safety Enterprise will then be able to identify potential risks and communicate them to your company in an easily understandable report with suggested corrective actions.

Project Review: An opportunity for a third party to review a unique process or task of the crew that they may have little or infrequent experience in conducting. The Safety Review is to assure the safety of the workers conducting the work as well as the other workers on the job site.

Safety Training: An essential part of any employer's responsibility is to provide safety training and education for their employees. Federal OSHA believes training is the cornerstone of every successful safety and health process.

Safety Staffing for a specific project or time span: We can provide a Safety Technician at your facility or job site to meet the many demands of large field projects by supplying the onsite project safety expertise your company needs. Ask us about our Safety Staffing Program that we can tailor specifically to your companies' needs and budget.

Mock OSHA Inspections: Safety Enterprise will visit your fixed facility and/or job site anywhere and conduct a full-scale, OSHA-like focused inspection. Our Safety Consultant performing this inspection has participated in a number of OSHA inspections, Informal Conferences and formal Citation Proceedings. The goal of this visit: to identify areas of non-compliance for you or your subcontractors.

Safety Enterprise has proven methods to assist our customers achieve their goals of providing a safe and healthful workplace for their employees. As an experienced professional in General Industry and Construction Safety; we can identify Safety and Health hazards, provide OSHA training and insure that your business and Work Sites meet the necessary requirements. Our goal is to help your business meet the current Federal and State job safety and health regulations that apply to your business.
