The Training Requirement

OSHA requires employers to provide training for operators of Industrial Trucks. Industrial Trucks include all forklift type vehicles.

29 CFR 1910.178 includes these requirements:

(l)(1)(i) Employers must ensure that each powered industrial truck operator is competent to operate a powered industrial truck safely, as demonstrated by the successful completion of the training and evaluation specified in this paragraph.

(l)(4)(iii) An evaluation of each powered industrial truck operator's performance must be conducted at least once every three years.

Other Training Available

Safety Enterprise provides training in all aspects of Safety, Health and Risk Management. Training can be tailored for managers, supervisors or employees. OSHA outreach courses are a specialty.

- ◆ General Industry Safety & Health
- ◆ Construction Safety & Health
- ◆ Fall Protection
- ◆ DOT Regulations (Including HM126F, IATA)
- ◆ Supervisor's Role in Safety
- ◆ Many Others
